

Paweł SULIK

BUILDING RESEARCH INSTITUTE
(Instytut Techniki Budowlanej)
Fire Research Department

Paweł Sulik obtained his Master degree in civil engineering from Lublin University of Technology, Faculty of Civil Engineering in Poland in 1992, PhD in Civil Engineering with specialization in concrete structure from Lublin University of Technology, Poland in 2002. Ph. D. Sulik worked both in academia and in the construction industry. Presently, Ph. D. Sulik works in Fire Research Department Building Research Institute as a researcher and in Main School of Fire Service as a lecturer. He is a Member of Scientific Board of Building Research Institute in Warsaw, Poland. His research interest include structures, construction, fire resistance, reaction to fire, spreading fire, fire tests. According to the Google Scholar his publications have been cited more than 780 times and his h-index is 16. He is the author or co-author of more than 100 scientific and technical papers, as well a few research project reports.

Selected papers
